PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate focused on full-stack development, REST APIs, responsive interfaces, and database-driven applications. Fast learner interested in UI/UX design, teamwork, communication, and exploring new technologies.

EDUCATION

Bangladesh University of Business and Technology (BUBT) <i>B.Sc. in Computer Science and Engineering</i>	Dhaka, Bangladesh 2023 – 2027
Doweed Public School and College <i>Higher Secondary Certificate (HSC)</i>	Jessore, Bangladesh 2022
Jessore Shikkha Bord Gov. Model School and College <i>Secondary School Certificate (SSC)</i>	Jessore, Bangladesh 2020

SKILLS

Programming Languages: C, C++, Python, Java, JavaScript, SQL, HTML/CSS, LaTeX
Frameworks & Platforms: React.js, Next.js, Node.js, Express.js, Spring Boot, Tailwind CSS, CustomTkinter
Databases & Tools: MySQL, MongoDB, Git, GitHub, Postman, Figma
Core Strengths: Responsive Web Design, UI/UX Principles, REST API Design, Backend Architecture, Problem Solving
Soft Skills: Team Collaboration, Effective Communication, Adaptability & Continuous Learning

PROJECTS

- Meal Khata — GitHub**
Developed collaborative full-stack web and Android applications for bachelor accommodation management
Implemented daily meal tracking, shared expense calculations, and automated billing
Built responsive interfaces integrated with secure REST APIs, emphasizing clean UI/UX and teamwork
- ExchangeXP (Spring Boot Backend) — GitHub**
Contributed to backend development for a team skill-trading platform using Java and Spring Boot
Developed modular API components for user and platform workflows, improving code organization for collaborative development
- Competitive Programming Practice — GitHub**
Maintains C++ problem-solving repository focused on data structures, algorithms, and contest-style optimization
Applies algorithmic thinking from competitive programming to improve implementation quality in application projects

EXPERIENCE

- Maintained an active public engineering portfolio with **40 repositories** spanning backend systems, full-stack applications, and desktop software
- Sustained high development consistency with **1,000+ GitHub contributions in the last year** across personal and collaborative repositories
- Collaborated through pull-request workflows in team projects, contributing feature implementations and backend improvements

AWARDS & ACHIEVEMENTS

- Intra-University Programming Contests:** Participated in 3 programming contests organized within my university, showcasing strong problem-solving and algorithmic thinking
- Intra-University Hackathon:** Participated in a university-organized hackathon, collaborating with a team to design and build an innovative project under time constraints
